New

Description

In Wickrange, on the Route des Trois Cantons, a new development of four single-family homes is about to see the light of day, in the extension of the residential area already home to the Monza and Daytona residences.

Designed to combine comfort, design and quality of life, these homes offer an ideal living environment for families seeking peace and quiet, while remaining close to major roads and essential amenities.

To guarantee optimum comfort, parking is provided in shared basements.

Each three-bedroom home has its own private garden with a spacious terrace.

The project for a high-speed tramway is currently underway, with work scheduled to start in 2028 and the line to open in 2035.

Delivery is scheduled for late 2026.
